### **MMR INFORMATION SYSTEMS INVITED TO KODAK EXECUTIVE SUMMIT IN FEBRUARY**

LOS ANGELES, CA (January 12, 2010) - MMR Information Systems, Inc. (MMRF.OB) (the "Company"), which through its wholly-owned operating subsidiary, MyMedicalRecords, Inc. (jointly with the Company, "MMR") provides consumer-controlled Personal Health Records ("PHRs") ([www.mymedicalrecords.com](http://www.mymedicalrecords.com)) and electronic safe deposit box storage solutions ([www.myesafedepositbox.com](http://www.myesafedepositbox.com)), has been selected as one of the Independent Software Vendors ("ISV") to attend the annual Kodak Executive Summit ("KES") to be held in San Antonio, Texas from February 2 through February 4. The announcement was made jointly by Robert H. Lorsch, Chairman and CEO of MMR Information Systems, Inc., and Brian Bagan, Director, Business Development, United States and Canada, Document Imaging, Kodak's Business Solutions and Services Group.

"This is MMR's first invitation to the Kodak Executive Summit and will be the first hands-on presentation of our MMRPro professional service offering to the top Kodak resellers. It represents a unique opportunity for us to be directly in front of this major reseller channel with our integrated patented health IT solution," said Lorsch. "We are proud to be part of this high level event and believe the Kodak Executive Summit will be the beginning of hundreds of sales people offering MMRPro to doctors and other healthcare providers in their territories through this reseller channel."

MMR was selected to attend KES because MMRPro provides resellers an opportunity to sell an integrated, end-to-end solution into the healthcare marketplace. The system uses Kodak scanners and Capture Pro software with a special integrated MMR Professional model to the healthcare community. The Company will start distribution of MMRPro by working with the Kodak resellers, concentrating on channel partners that focus on selling into the healthcare vertical marketplace.

KES is an exclusive conference for selected Kodak authorized imaging resellers, distributors and independent software vendors, as well as members of Kodak's Document Imaging business' senior management team. The event is by invitation only to approximately 75 of Kodak's Document Imaging resellers and key Document Imaging partners. The forum will provide MMR the opportunity to spend time with these key Kodak resellers at an "MMR University" curriculum to fully introduce their sales organizations to MMRPro, which allows doctors to scan and digitize patient records using Kodak hardware and software, then store and access records on a secure, Web-based portal. MMR would then work with these and other resellers nationwide and provide training and sales support as the product is introduced to doctors, clinics and other providers.

"Kodak is committed to working with our channel partners to provide capture platform solutions in the healthcare vertical space," comments Brian Bagan. "MMRPro addresses patients' need to access their Personal Health Record online, while providing doctors' offices with a comprehensive yet easy-to-use solution to capture, archive, store and retrieve patient records. The MMRPro solution, which incorporates Kodak scanners, Capture Pro software and service, represents a very strategic solution offering for Kodak and MMR in the Healthcare Industry."

### **About MMR Information Systems, Inc.**

MMR Information Systems, Inc. (OTC.BB: [MMRF - News](#)), through its wholly-owned operating subsidiary, MyMedicalRecords, Inc. ("MMR"), provides secure and easy-to-use online Personal Health Records ("PHRs") and electronic safe deposit box storage solutions, serving consumers, healthcare professionals, employers, insurance companies, unions and professional organizations and affinity groups. MyMedicalRecords enables individuals and families to access their medical records and other important documents, such as birth certificates, passports, insurance policies and wills anytime from anywhere using the Internet. The MyMedicalRecords Personal Health Record is built on proprietary, patented technologies to allow documents, images and voicemail messages to be transmitted and stored in the system using a variety of methods, including fax, phone, or file upload without relying on any specific electronic medical record platform to populate a user's account. The Company's professional offering, MMRPro, is designed to give physicians' offices an easy and cost-effective solution to digitizing paper-based medical records and sharing them with patients in real time. MMR is an Independent Software Vendor Partner with Kodak to deliver an integrated turnkey EMR solution for small to mid-size physician practices. MMR clients include AFL-CIO, Alexian Brothers Hospital Network, Coverdell, LegalZoom, The Latino Coalition, MedicAlert, NRA, XN Financial and others. MMR is also an integrated service provider on Google Health. To learn more about MMR Information Systems, Inc. visit [www.mmrinformationssystem.com](http://www.mmrinformationssystem.com).

### **Forward Looking Statements**

Any statements contained in this press release that refer to future events or other non-historical matters are forward-looking statements. MMR Information Systems, Inc. disclaims any intent or obligation to update any forward-looking statements. These forward-looking statements are based on MMR Information Systems, Inc.'s reasonable expectations as of the date of this press release and are subject to risks and uncertainties that could cause actual results to differ materially from current expectations. The information discussed in this release is subject to various risks and uncertainties related to changes in MMR Information Systems, Inc.'s relationship with Kodak, its business prospects, results of operations or financial condition, and such other risks and uncertainties as detailed from time to time in MMR Information Systems, Inc.'s public filings with the U.S. Securities and Exchange Commission.
